Slide 4	Your Response

▶ Exercise - User and Groups »

Write a script that;

- Creates a user account by asking user to enter a user name
- Prints error if user already exists
- Asks user to enter description for new user
- Adds the description to the new user account
- Prints message that user successfully created.
- Asks user to enter a group name
- If group name is empty script will do nothing.
- If given group name does not exist create a group
- Add user to the group
- Print message that user successfully added to the group

Students, write your response!

<div> <div> ▶ Exercise - Delete old files » </div> <div> <p>Step 1: Write a script to delete files older than 10 days</p> <p>Step 2: Modify your script to get day reference from the first argument</p> </div> <div>  <p>Students, write your response!</p> <p>Peer Deck Interactive Slide</p> </div> </div> <div>Use this space to take notes:</div>	

Slide 6	Your Response

► Exercise - File watcher

1. Write a script that checks whether clarusway.txt exists in the current directory.
If file is found the script will delete the file and prints a message.
2. Run the script on the background.
3. Test the script
4. Terminate the script

SWAY
Presentations, write your response!
